

To those planning to visit the hospital with fever
or cold symptoms

Thank you for choosing us for your medical care.

Pneumonia possibly linked to a novel coronavirus
has been going around now

We cannot provide care to patients with the following
symptoms. Please contact the numbers (ex.
Coronavirus helpline) listed below.

① Having cold symptoms or
temperature goes above 37.5C for more than 4
days.

(Including those who need to keep taking
antipyretics/fever medicine)

② Having exhaustion(fatigue) or shortness of breath
(difficulty breathing)

* Older patients or patients with underlying disease have
the above-mentioned symptoms that
last more than 2 days.
